AMENDMENT

(37 C.F.R. §1.115)

Please enter the following amendment:

IN THE CLAIMS:

Please cancel claims 42-61 and add new claims 62-81 as follows:

62(Newly Added). A immunoassay method for a analysis sample comprising the steps of:

a. contacting the sample with a specific binding monoclonal antibody specifically recognizing human iNOS enzyme without cross-reacting with human nNOS or human eNOS; and

K  
b. detecting the presence of human iNOS protein in said sample, said specific binding monoclonal recognizing human iNOS protein.

63(Newly Added). A immunoassay method for analysis of a sample comprising the steps of:

a. contacting the sample with a specific binding entity reactive to human iNOS, said specific binding entity selected from
